PROFESSIONAL PROFILE

IT risk, audit and enterprise technology professional with 8+ years of experience across insurance, banking and the public sector. Hands-on background in IT audit engagement, risk findings remediation, vulnerability management follow-up, disaster recovery exercises, access controls and data protection. At NSIA Insurance, worked on NAICOM, EY, Deloitte and internal IT audits while overseeing critical platforms with 99.9% availability. ISO/IEC 27001 ISMS Lead Implementer certified.

CORE IT RISK CAPABILITIES

IT audit & regulatory examinations • Audit evidence and findings closure • Vulnerability / VAPT remediation • Disaster recovery exercises • IT control self-review • Access and identity controls • Data privacy and protection • Governance, policies & SOPs • Vendor/service risk • Stakeholder engagement

SELECTED RISK, AUDIT & COMPLIANCE CONTRIBUTIONS

- Worked on EY, Deloitte, NAICOM and internal IT audits at NSIA, and IT audit engagements at LSETF, supporting evidence requests, control reviews and follow-up actions.
- Supported closure of IT risk findings and vulnerability/VAPT observations, including access-control remediation for exited employees and improvements to deactivation procedures.
- Participated in disaster recovery activities at NSIA; served as Data Protection Officer at LSETF, supporting responsible handling and protection of personal data.

PROFESSIONAL EXPERIENCE

Tango Brook Technologies Ltd.

Mar 2026 – Present

Senior Full Stack Engineer and IT Audit Lead Implementer | Lagos, Nigeria

- Develop and support secure enterprise applications and integrations using Java, C# and Next.js, with focus on confidentiality, resilience and reliable operations.
- Investigate system incidents and environment-configuration issues, coordinate corrective fixes and support controlled application enhancements and releases.
- Lead Implementer of The Information Security Management System (ISO 27001) Certified.
- Contribute to technical documentation and adherence to organizational information-security and compliance requirements.

NSIA Insurance Ltd.

Sep 2022 – Mar 2026

Team Lead, Enterprise Software Applications (Deputy Manager) | Lagos, Nigeria

- Coordinated technology-related activities for NAICOM regulatory audits, EY and Deloitte IT audits, and internal IT audits, including supporting evidence and audit observations.
- Followed up open IT risk items and corrective actions, including removal of access for exited staff, account-deactivation SOPs and access-control improvements.
- Supported disaster recovery exercises and cross-functional readiness activities, working with relevant teams on recovery and continuity expectations.
- Worked with IT/security stakeholders on vulnerability assessments (VAPT), remediation activities, IT control documentation and audit-related technical fixes.
- Led operations and enhancements for core insurance applications, customer portals and claims systems; maintained 99.9% availability through monitoring and optimization.
- Supported IT governance, maintenance planning, budget decisions and vendor/service-risk processes in a regulated financial-services environment.

ADDITIONAL EXPERIENCE

Lagos State Employment Trust Fund (LSETF)

Apr 2020 – Sep 2022

Lead, Enterprise Software Engineer; also served as Data Protection Officer | Lagos, Nigeria

- Served as Data Protection Officer, supporting data-protection compliance, privacy controls and the responsible handling of sensitive information.
- Participated in IT audit activities, supporting control reviews, provision of technical evidence and follow-up on identified issues.
- Led Loan Application Portal improvements and ERP solutions for HR, Procurement and Finance, including deployment controls, maintenance and cross-department support.

SBSC

Nov 2023 – Feb 2024

Full Stack Web Developer (Contract, Remote)

- Enhanced FCMB financial applications using C#, Java and ASP.NET MVC; implemented secure REST APIs and contributed to testing and controlled releases.

Equity Bank Ltd.

Aug 2021 – Jun 2022

.NET Engineer (Contract, Remote)

- Developed core banking APIs, improved integration security and interoperability, and documented interfaces for internal and external stakeholders.
